

PX7000

Power Distributor

DESCRIPTION

PX7000 Power Distribution System is designed for fixed or mobile applications where three phase and single phase GPO power distribution is required. The PX7000 is internationally recognised as reliable, good value, solid and dependable.

FEATURES

- Input: 1 x 32A 220-250V three-core, CEE IP44 socket
- Output 6: 1 x 32A 220-250V three-core, CEE IP44 socket
- Output 5: 1 x 32A 220-250V three-core, CEE IP44 socket
- Output 1-4: 1 x 16A 220-250V three-core, CEE IP44 socket
- Max power: 73KVA
- Fuse 1-4: 16A/16A 220/230V
- Fuse 5: 16A 220/230V
- Fuse 6: 32A 220/230V
- Case: 2U rack height with 1.5mm thickness metal
- Weight: 6kg

TECHNICAL SPECIFICATIONS

Input	1 x 32A 220-250V
Output 4	1 x 32A 220-250V
Output 5	1 x 16A 220-250V
Output 1/2/3	16A 220-250V
Max power	7KVA
Fuse 1/2/3	15A/16A 230V(15A for Europe)
Fuse 4	16A 230V
Fuse 5	32A 230V
