

# db6100

Vehicular-mounted directional audio engine system

## DESCRIPTION

db6100 consists of 6pcs db100II active audio engine and 1pc db100CII controller. The system is mainly use on the vehicle to launch strong sound. combining to be a long range directional strong sound dissipation system, which is a non-lethal weapon of a new concept, through directional large area to launch strong sound

## FEATURES

- Small power,high SPL
- Built-in mp3 player and wireless microphone (optional), can play the content at any time you need
- Design for remote speaking,warning,deterrent effect With function of waterproof,dustproof(IP45),drop resistance
- Directional for good language intelligibility which can up to 85% while reach at1000 meters.
- Apply for crowd evacuation,warning and dispersation, military exercise,prevention emergency evacuation, remote warning guidance, entrance control and illegal immigrant

TECHNICAL SPECIFICATIONS

Acoustical specifications	Frequency Response(-3db):	250Hz-5kHz (-15dB)
	Max SPL @ 1m:	125dB(PEAK,100m)
	Dispersion (H x V):	50° x 50°
Transducers		
Input/Output section		
Power section	Cooling:	Natural cooling
	Voltage range:	AC 210V/230V, 50Hz/60Hz
Physical specifications		
Size	Dimension (W x D x H):	1362 x 380.5 x 397mm / (53.6 x 15 x 15.6in)
Weight
